**Subject:** Reclamation Oil - Groundwater Verification Sample Collection Schedule

## Tricia,

Horizon has scheduled the collection of pre-excavation groundwater verification samples at the Reclamation Oil site in Detroit for Thursday, January 20, 2011. We will have two individuals completing the sampling and hope to complete the work in a single day. If need be, we will return on Friday, January 21, 2011 to complete the work.

Let us know if you have any questions.

Thank you.

Bill Davidson
